SUMMARY

Python Full Stack & AI Developer with hands-on experience developing backend applications, RESTful APIs, and automation solutions using Python, Django, and FastAPI. Skilled in building scalable web applications, integrating third-party APIs, and developing Generative AI, RAG, and AI-powered solutions using modern frameworks. Experienced with PostgreSQL, React, and backend optimization through real-world projects and industry experience. Passionate about building efficient, scalable, and production-ready software.

SKILLS

Programming: Python, JavaScript

Backend: Django, Django REST Framework (DRF), FastAPI, REST APIs, API Integration

Databases: PostgreSQL, MySQL, FAISS (Vector DB), ChromaDB (Vector DB)

Frontend: React, Redux

AI & Automation: Generative AI, LangChain, RAG, AI Agents, n8n

Tools & Technologies: Git, GitHub, Postman, Docker, Celery, Redis

Soft Skills: Problem-Solving, Teamwork, Time Management

WORK EXPERIENCE

Brandstrek Coders

December 2025 – March 2026

Python Developer Intern

- Collaborated with a team to develop and maintain backend services and AI-enabled features using Python, Django, FastAPI, and REST APIs.
- Implemented backend APIs, database models, and authentication using Django REST Framework.
- Fixed bugs, optimized existing code, and improved API performance and reliability.
- Tested, debugged, and resolved backend issues to improve application stability and reliability.
- Worked in an Agile environment using Git, participating in code reviews and backend feature development.

Brandstrek Coders

April 2026 – June 2026

Junior Automation & Python AI Developer

- Developed AI automation solutions using Python, n8n, and Generative AI.
- Built AI-powered backend applications with Django, FastAPI, and REST APIs.
- Integrated LLMs and RAG pipelines to automate business workflows.
- Optimized backend APIs, resolved production issues, and collaborated with cross-functional teams in an Agile environment.
- Assisted in deploying backend applications and integrating third-party APIs into production environments.

PROJECTS

Mentor Slot Booking System

- Developed a backend mentorship scheduling system using Django, DRF, and PostgreSQL.
- Implemented user authentication, booking management, and email notifications using **Celery** and **Redis**.
- Developed a backend mentorship scheduling system using **Django**, **DRF**, and **PostgreSQL**.

AI Resume Analyzer (ATS Optimization Tool)

- Developed an AI-powered resume analyzer using **FastAPI**, **LangChain**, **React**, and **LLMs**.
- Integrated resume parsing and job description analysis to generate ATS optimization recommendations.
- Built REST APIs for resume upload, processing, and result generation.

AI Document Assistant (RAG)

- Developed a **Retrieval-Augmented Generation (RAG)** application using **FastAPI**, **LangChain**, **FAISS**, and **LLMs**.
- Implemented document indexing, semantic search, and context-aware response generation.
- Built backend APIs for document processing and intelligent query handling.

EDUCATION

Bachelor of Business Administration (BBA)

Calicut University

Kozhikode, Kerala

2023-2026
