SUMMARY

Python Full Stack & AI Developer with hands-on experience building backend applications, RESTful APIs, and Generative AI / RAG solutions using Python, Django, FastAPI, and LangChain. Skilled in designing scalable systems, integrating third-party APIs, and optimizing backend performance with PostgreSQL, Redis, and Celery. Proven ability to ship production-ready features in Agile teams and automate business workflows with AI agents.

SKILLS

- Programming: Python, JavaScript
- Backend: Django, Django REST Framework (DRF), FastAPI, REST APIs, API Integration
- Databases: PostgreSQL, MySQL, FAISS, ChromaDB
- Frontend: React, Redux, Next.js
- AI & Automation: Generative AI, LangChain, RAG, AI Agents, Workflow Automation, n8n
- Tools & DevOps: Git, GitHub, Docker, Celery, Redis, Postman
- Soft Skills: Problem-Solving, Teamwork, Time Management

WORK EXPERIENCE

Brandstrek Coders LLP

Junior Automation & Python AI Developer

Apr 2026 – Jun 2026

- Developed AI automation solutions using Python, n8n, and Generative AI, streamlining internal business workflows.
- Built and deployed AI-powered backend applications with Django, FastAPI, and REST APIs, integrating LLMs and RAG pipelines into production workflows.
- Optimized backend API performance, resolved production issues, and collaborated with cross-functional teams in an Agile environment to deploy backend applications and third-party API integrations.

Python Developer Intern

Dec 2025 – Mar 2026

- Collaborated with a cross-functional team to develop and maintain backend services and AI-enabled features using Python, Django, FastAPI, and REST APIs.
- Implemented backend APIs, database models, and authentication using Django REST Framework, improving reliability and reducing recurring bugs.

PROJECTS

Freelance Marketplace — Client–Freelancer Hiring Platform | [GitHub](#)

- Built a full-stack freelance marketplace connecting clients and freelancers using Django REST Framework, PostgreSQL, and JWT authentication, enabling project posting, applications, and role-based hiring workflows.
- Developed a React and Redux Toolkit frontend with Tailwind CSS, and implemented automated email notifications using Celery and Redis, with the application containerized via Docker and Nginx.

LeadAudit Pro — AI-Powered Lead Generation & Website Audit Tool | [GitHub](#) | [Live Demo](#)

- Built a full-stack lead generation and website auditing platform using Next.js and FastAPI, integrating Groq-based AI analysis and Apify web scraping.
- Implemented real-time SSE for live audit progress, Google Sheets integration for lead storage, and dynamic PDF report generation.

AI Resume Analyzer — ATS Resume Optimization Tool | [GitHub](#) | [Live Demo](#)

- Developed an AI-powered resume analyzer using FastAPI and LangChain, parsing resumes and job descriptions to generate ATS optimization recommendations.
- Built REST APIs for resume upload and processing, with a React frontend delivering real-time feedback.

EDUCATION

Python Full Stack Development with Gen AI

May 2025 – Nov 2025

Haris and Co. Tech School, Kozhikode, Kerala

Bachelor of Business Administration (BBA)

2023 – 2026

Calicut University, Kozhikode, Kerala
